Simplicity Drop Side Cribs Recalled by Retailers Due to Risk of Death from Suffocation

WASHINGTON, D.C. – The U.S. Consumer Product Safety Commission, in cooperation with the firm named below, today announced a voluntary recall of the following products. Consumers should stop using recalled products immediately unless otherwise instructed.

Name of Product: Simplicity Drop Side Cribs

Units: About 400,000

Importer/Distributor: Simplicity Inc. and SFCA Inc. of Reading, Pa. (The firms appear to no longer conduct day to day operations.)

Hazard: The crib's plastic hardware can break or deform, causing the drop side to detach. When the drop side detaches, it creates space between the drop side and the crib mattress. Infants and toddlers can roll into this space and become entrapped which can lead to suffocation.

Incidents/Injuries: CPSC is aware of one death involving an 8-month-old child from Houston, Texas who became entrapped and suffocated between the drop side and the crib mattress when a plastic connector on the drop side broke. The child's death was previously reported by CPSC [link 07-307]. CPSC also is aware of an additional 25 incidents involving the drop side detaching from the crib. In six of these incidents, the drop side detached because the plastic flexible tab deformed or broke. In four of the drop side detachment incidents, other plastic parts, including connectors or tracks, deformed or broke. In two of the incidents, two children became entrapped between the drop side and the crib mattress. There were no reported injuries.

Description: This recall involves all drop side cribs with a different or "newer" style of plastic hardware from those cribs recalled in September 2007. This newer style of Simplicity hardware can be identified by a flexible plastic tab at the top of the lower tracks. The recalled model numbers include but may not be limited to: 8050, 8325, 8620, 8745, 8748, 8755, 8756, 8765, 8778, 8810, and 8994, 8995, 8996.

Sold at: Department stores, children's stores, and mass merchandisers nationwide from January 2005 through June 2009 for between \$150 and \$300.

Manufactured in: China

Remedy: Consumers should immediately stop using the recalled cribs and find an alternative, safe sleeping environment for their baby. Consumers should immediately return the crib to the place of purchase for a full refund, replacement or store credit.

CPSC is still interested in receiving incident or injury reports that are either directly related to this product recall or involve a different hazard with the same product. Please tell us about it by visiting <https://www.cpsc.gov/cgibin/incident.aspx>

[Send the link for this page to a friend!](#) The U.S. Consumer Product Safety Commission is charged with protecting the public from unreasonable risks of serious injury or death from thousands of types of consumer products under the agency's jurisdiction. The CPSC is committed to protecting consumers and families from products that pose a fire, electrical, chemical, or mechanical hazard. The CPSC's work to ensure the safety of consumer products - such as toys, cribs, power tools, cigarette lighters, and household chemicals - contributed significantly to the decline in the rate of deaths and injuries associated with consumer products over the past 30 years.

To report a dangerous product or a product-related injury, call CPSC's Hotline at (800) 638-2772 or CPSC's teletypewriter at (800) 638-8270.
