STEP BY STEP

1. Cover the whole face with Luna Cream Colour Base with Brush #249.
2. Outline the butterfly design with Fascinating Eye Kohl and sketch detail of wings.
3. Begin with using Brush #242 to shade Juxt Eye Shadow under the eyes, and then follow by blending the following Eye Shadows outward to create an airbrushed effect that moves from green, to blue, to purple: Swimming, Aquadisiac, Moon's Reflection, and Stars and Rockets.
4. Use Brush #242 to apply Gorgeous Gold Eye Shadow along the inner corner of the eye and blend upward with Expensive Pink, Coppering, and Sushi Flower to finish the upper portion of the butterfly with an airbrushed finesse.
5. Use Brush #209 with Boot Black Liquid Liner to outline the butterfly and detail pattern inside of the wings.
6. Use Brush #252 with Carbon Eye Shadow to shade over the entire face.
7. Use Duo to apply Lash #42 to the upper lashline and finish with two to three coats with Zoomblack Mascara.
8. Define the lip with Velvetella Cremestick Liner. Apply Cyber Lipstick with Brush #311 and Girl About Town Lipstick along the inner lip for a strong highlight. Finish with a glossy coat of Dazzleglass in Date Night.
